

Crystal Questionnaire

If you checked off any of these questions, the choice is **Crystal clear!**

- Have you ever felt nervous or unsafe while driving in a rain storm due to poor visibility?
- Have you ever been late to a destination because you had to take the extra time to clean snow or frost from your windshield?
- Do you avoid driving at night because glare makes it difficult or even painful to see?
- Do bugs or insects stick to your windshield?

Put an end to this view with one simple decision...

The advantages of Crystal Fusion...

Whether you're an Offroader or an every day driver...

Improved Durability

When protected by Crystal Fusion, your windshield is less likely to crack or chip from small road debris.

Safety Enhancement

Love your new car and those who ride in it?

As part of the Safety Restraint System (SRS), the factory installed windshield is crucial to the structural integrity of your vehicle. Protect your vehicle and your family today with Crystal Fusion to enhance your windshield.

- ◆ Improves clarity and visibility to extend driver reaction time
- ◆ Deflects small road debris to reduce damage to glass
- ◆ Significantly reduces Night Glare
- ◆ Allows insects to easily be washed away
- ◆ Makes ice and snow much easier to remove
- ◆ Protects against acid rain, corrosion and mineral buildup
- ◆ Water beads up and rolls away

Cleanliness

Dirt and mud are no match for Crystal Fusion. Bugs, snow and ice are easier to remove.

Clarity is Crystal Clear

With today's technology, would you buy a non-High Definition Television...?

The improved clarity of a windshield treated with Crystal Fusion is so enhanced, it is comparable to the high resolution of High Definition TV versus Standard TV.
